

Facility Maintenance and Management

We provide a single source for all of your facility maintenance needs, offering flexible contract service solutions, always striving to improve, maintain and preserve our client's facilities. Our service programs are customized to our customers' unique requirements. Our scope of facility maintenance services includes HVAC, janitorial, repairs, lighting, grounds, electrical, plumbing, roofing, generators, fleet maintenance, and more. Whether bundling of various services or complete outsourcing for your facility maintenance and service, we can work with you to tailor a program that meets your specific outsourcing needs.

With over 30 years of experience maintaining buildings and properties ranging from aircraft hangars and large warehouses to administrative offices and small storage buildings, LGSTX Services can manage and maintain your facility.

Our high quality control standards and specialized technicians are among the best in their fields. Using its extensive and varied experience, LGSTX Services will maintain your facilities to make it more attractive to your customers and your employees.

LGSTX Services will establish a preventive maintenance program specifically for your facility to help keep you

operating. It will do the planning, scheduling and labor, while you concentrate on your core business. Preventative maintenance and repairs to your facilities will be done to meet your needs, on your schedule, so as not to interrupt your operation.

LGSTX Services offers a suite of services spanning numerous industries and operational needs. With over 30 years of experience in OSHA compliance, safety regulations and maintenance expertise ranging across equipment, vehicles, facilities and material handling equipment.

Benefits

- Reduce/control your operating costs
- Defined facility maintenance planning
- Centralized source for facility maintenance eliminates the need for multiple vendors
